Subject: RE: Nearshore aragonite saturation data

I talked with Francis Chan yesterday, he has mooring data within state waters with aragonite saturation but that data set are in review now.

However, he pointed me to a publically available dataset from the cruise that the Bednarsek pteropod data from and there are additional carbonate chemistry data in what we believe are state waters. I need to pick out the data points in the nearshore, calculate arag sat and then will provide the data. Be in touch shortly.

Cheryl

Subject: RE: Nearshore aragonite saturation data

we have the sst map that shows even colder water inshore of the Bednarsek data, and would be great to have the saturation data and plot on the overlay.
